

UKRAINIAN SCI RELIEF

Support for refugees with SCI

More than 5 million people are fleeing from war. Among them are many people with disabilities who are particularly vulnerable.

We are helping!

Shelter and support for SCI

Within the European aid project „Ukrainian SCI Relief“ the European Spinal Cord Injury Federation (ESCIF), with the support of the Swiss Paraplegic Foundation (SPF) and German Spinal Injuries Association (FGQ), are running a safe-house for refugees with disabilities from Ukraine. Our main focus is on people with a paraplegia, who need vital support in dealing with this disability, and in many cases medical, nursing and therapeutic support.

The safe-house is located approx. 30 km from the Ukrainian border in the Polish town of Cyców and offers accommodation for people with a chronic Spinal Cord Injury and accompanying persons. The facility is organized by ESCIF with logistical and financial support from the Swiss Paraplegic Foundation (SPF) and the German Spinal Injuries Association (FGQ). It serves as a stopover before onward transport to other European countries is organised. After initial care, the refugees with disabilities are transported to safe locations with the support of a network of European aid organisations.

ESCIF SAFE-HOUSE POLAND in Cyców near Chelm

Main aims of the SAFE-HOUSE

- Give wheelchair users – with a focus on SCI – and their families a place to go and take a 3-10 day rest before they are transferred to their final destination.
- First assessment by specialized personnel which is able to address minor medical needs.
- Search for suitable accommodation and co-ordination of onward transport by ESCIF, SPS and FGQ networks.
- Care of individuals tested positive for the coronavirus until they are cleared for further transport.

The safe-house offers assistance and information and refers to specialized SCI centers if necessary.

Further information is available from the FGQ office.

How can I help?

If you can provide suitable accessible accommodation, please contact the FGQ office. In addition, we are asking for donations to help us provide medical and nursing care, to provide refugees with urgently needed medical aids and to organise their further transport.
